

## Great Wood School Head Lice Policy

Action to be taken when head lice are seen on a child at Great Wood School.

1. Parent is notified of the head lice.
2. School will help parent access treatment through the school nurse, if necessary.
3. Parents of children in the class and class of a sibling will be sent Head Lice letter/text.
4. In cases where the head lice are causing discomfort for the child or head lice is a persistent problem for the child, parent will be contacted, requested to pick up their child as soon as possible, clear their head of lice with treatment and return them as soon as possible (hopefully the same day).
